

HELP MAKE FERRIS ELEMENTARY'S PLAYGROUND ADDITION A REALITY!

The Ferris Elementary School Parent Advisory Council (PAC) is working to fund an addition to our current playground. A place where every child in the school, as well as in the community, has the opportunity to play, learn, and grow together through play.

Any contribution from your organization would be much appreciated and will have a direct impact on the health and happiness of all children in our community now and in the future. Our ultimate fundraising goal has been set at \$110,000 and this will include the playground equipment cost, delivery, installation, etc. The Ferris PAC has been working hard holding several fundraising events for the past years and has raised \$65,000. We would kindly like to ask your help in order to fulfill our dream so that we can have this amazing addition constructed and operational by August 2020.

Your donation will go **DIRECTLY** to the playground fund. The above picture shows our conceptual design of the project. The new equipment offers a variety of play options for all ages and will be an important addition to Ferris as well as the community as a whole. We are sincerely asking for your help to consider making a donation towards the playground.

Thank you very much,

Parent Advisory Council, W.D. Ferris Elementary

Mrs. Steele, Principal and Mr. Campbell, Vice Principal
