

Ferris Playground Expansion – Community Installation

We are pleased to announce that we will soon complete our playground expansion project that had been delayed due to the pandemic. The scheduled installation date will be Saturday, September 18, 2021. We will need **20 parent volunteers** for the entire day who are willing to engage in physical labour. With protocols in place to ensure the safety of parent volunteers, Habitat Systems, Inc. will provide operational guidance during the entire installation process. Your volunteering assistance plays a significant role in helping to finish this project. It is important to note that a **full day commitment** is required. PAC will provide lunch to all volunteers on that day.

Please email us at ferrispac@gmail.com if you're able to be part of this exciting and rewarding project. We appreciate the effort and commitment of all our volunteers.
