

January 2023 Results

DESSA results 01/23

What we noticed:

- Students showed strengths in being kind to others
- There were equal splits in the areas of paying attention, following directions and being responsible
- Strong showing in taking care and taking time when doing work
- Students showed strength in following teacher advice.

What we did between January and June 2023:

1. EASE lessons focussed on self-awareness and self-regulation as well as addressing worries and fears.
2. SR lessons on kindness and building empathy for others.

June 2023 Results

What changes did we see?

- Student's ability to take responsibility for their actions increased significantly overall (from 52% to 88% of students) while those who did this rarely or occasionally dropped from 42% to 9.5% of students
- Positive shift in kindness behaviour (61.9 % to 86%)
- No real change in positivity in classroom culture (it was already positive!)
- Number of students who improved their ability to pay attention increased by 14%
- Social awareness and cooperation improved significantly (+29%)
- Slight improvement in student's ability to follow instructions
- Significant increase in the number of students who were able to connect with and follow the advice of a trusted adult (52% to 81)
