

DESSA RESULTS JUNE 2023 (KINDERGARTEN)

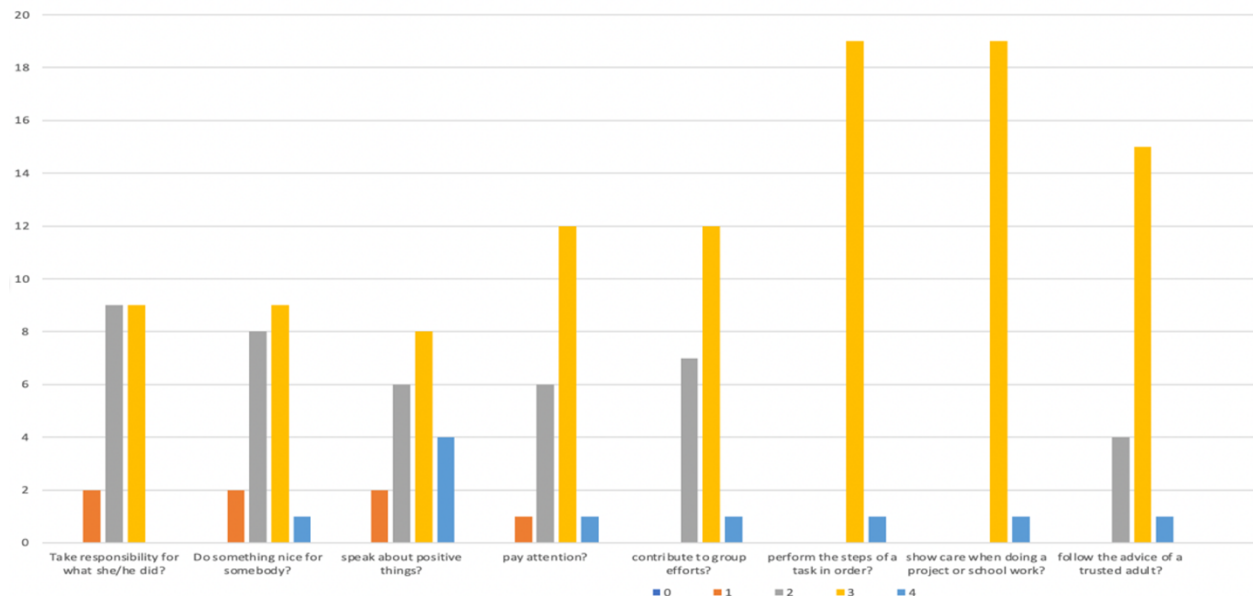

DESSA Results for Baseline in January 2023

What we noticed since January:

- There was an 11% increase in the percentage of students who showed improvement in areas of paying attention, following directions and being responsible.
- Strong positive shift in taking care and taking time when doing

June 2023

What other changes did we see?

- Most significant was that the number of students who never or rarely showed these SEL behaviours dropped completely, and many behaviours moved to frequently or very frequently.
- From observation in the class, students increased their feeling word vocabulary and were able to name feelings confidently most of the time and recognize them in others.
- Social awareness skills increased from January to June with 65% of students being able to contribute to a group frequently or very frequently in June, compared with 40% in January. 35% of students in January never or rarely contributed to group efforts.
