WHEN YOUR CHILD SHOULD STAY HOME?

As busy parents it is not always easy to tell when you should keep your child home from school and its not always convenient. Below are the guidelines that we use to determine when your child should stay home.

- If your child has tested positive for Covid-19
- If your child has a fever (99.5F or 37.5C or above)
- If your child has pink eye or an undiagnosed rash
- If your child has vomited or had diarrhea in the last 48 hours
- If your child has a cough, runny nose and or sore throat
- If your child seems overtired or just not their usual self.
- If your child is not well enough to go outside for recess or too tired to participate in class, this is a good indication that they should stay home

Keeping your child at home when they are sick will speed up their recovery and help to keep our school a healthy place.
